

**RAVASOL PAC FG-700**

**WATER**

**ACTIVATED CARBON**

**PURIFYING OUR AIR AND WATER**

**DESCRIPTION**

RAVASOL PAC FG-700 is a virgin powdered activated coke produced from bituminous coal through a thermal activation process.

RAVASOL PAC FG-700 is recommended to ensure high performance treatment in flue gas applications, in particular to capture dioxane and furan emissions from municipal waste incinerators.

**SPECIFICATIONS**

Parameter	Value
Iodine index	>700 mg/g
BET	>700 m <sup>2</sup> /g
Moisture (as packed)	<5%
Ash content	<12%
Apparent density	570 ± 30 Kg/m <sup>3</sup>
Sulphur content	<0.5%
